Comprehensive Cloud Solutions

At Converge Cloud, we understand that the journey to the cloud is not just a technological shift but a transformative strategy that drives innovation, agility, and operational excellence. As a trusted partner, we deliver services tailored to your unique business needs, leveraging the full potential of Microsoft Azure to empower your organization.

Our Services includes:

Expert Advisory Services

Your Cloud Strategy Compass

In-Depth Assessments

Clarity through Insights

Greenfields Azure Landing Zone Setup

Build on a Solid Foundation

Seamless Migrations

Moving to Cloud with Confidence

Backup & Disaster Recovery

Secure Operations, Seamless Recovery

Expert Advisory Services

Our advisory services focus on helping organizations navigate their cloud transformation with confidence and precision.

Strategic Cloud Planning

Collaborate with our experts to design a comprehensive cloud strategy aligned with your business objectives, ensuring measurable outcomes and long-term value.

Governance and Compliance

Develop a strong governance framework based on Microsoft's Cloud Adoption Framework (CAF) and Well-Architected Framework (WAF). This includes defining access controls, cost management policies, and ensuring adherence to industry regulations.

Cost Optimization Analysis

We perform analysis to identify cost-saving opportunities and optimize resource allocation while maintaining peak performance.

Risk Assessment and Mitigation

Identify potential risks in your cloud strategy and deploy mitigation plans to minimize downtime and disruptions.

In-Depth Assessments

Our assessments provide you with a comprehensive understanding of your current environment.

Azure Infrastructure Assessment

Evaluate your Azure resources and configurations to ensure alignment with best practices for performance, scalability, and security.

SQL Workload Assessment

Dive deep into your SQL environment to uncover performance bottlenecks, identify opportunities for consolidation, and determine cloud-readiness for your workloads.

Cloud Readiness Assessments

Assess on-premises workloads, providing actionable insights for smooth migration to the cloud, including dependency mapping and workload prioritization.

Performance Baselines

Establish a clear understanding of current system performance to set measurable improvement targets post-migration.

Greenfields Azure Landing Zone Setup

Our Greenfields Azure landing zones provide a robust starting point for your cloud journey.

Custom Landing Zone

Design and implement landing zones that are tailored to your organization's requirements, including networking, identity, security, and governance configurations.

CAF and WAF Alignment

Ensure your landing zone adheres to Microsoft's best practices for scalability, security, and cost efficiency.

Blueprints and Guardrails

Deploy pre-configured templates for consistent resource provisioning, policy enforcement, and cost management.

Operational Readiness Testing

Validate the readiness of your landing zone through comprehensive testing, ensuring it supports production workloads seamlessly.

Seamless Migration

Transitioning to the cloud can be complex, but our structured approach ensures success.

Migrations to Azure

From planning and testing to execution, we handle all aspects of moving on-premises servers to Azure, minimizing disruption and ensuring a smooth transition.

Modernization

Modernization and transformation for enhanced performance and scalability, leveraging Azure-native services such as Azure SQL Database and App Services.

Hybrid Cloud Configurations

Implement hybrid solutions to seamlessly integrate your on-premises infrastructure with Azure, enabling flexibility and scalability.

Migration Factory Approach

Utilize repeatable processes and automation tools to accelerate migration timelines while maintaining high accuracy and minimal risk.

Backup and Disaster Recovery (BDRaaS)

Ensure your business continuity with reliable backup and DR solutions.

Dedicated Azure Subscription and Scalable Architecture

A Greenfields Azure environment exclusively provisioned for each customer with a future-proof design that supports growth, including the ability to scale compute, storage, and backup resources as needed.

Seamless Integration

Hybrid connectivity through an express route or Site-to-Site VPN, enabling secure communication between the organization's on-premises infrastructure and Azure cloud.

Comprehensive Data Protection

Backup and replication for virtual machines (VMs) using Azure Backup and Azure Site Recovery services.

Regulatory Compliance

The solution adheres to RPO and RTO standards as per HIPAA requirements, minimizing potential disruptions and ensuring data availability.

Why Choose Converge Cloud?

Unmatched Expertise

With extensive experience we deliver solutions that are trusted, tested and tailored to meet your needs.

End-to-End Services

From advisory and assessments to migration, setup, and ongoing management, we provide complete support throughout your cloud journey.

Innovation-Driven Approach

Leverage cutting-edge technologies and best practices to stay ahead in a competitive landscape.

Security at the Core

Protect your cloud with advanced security frameworks, tools, and methodologies that ensure compliance and resilience.

Customer-Centric Focus

We collaborate closely with you to deliver solutions that align with your business goals and drive tangible results.

Your Commitment is our Success

We are not just a service provider - we are your strategic partner in cloud transformation.

Our solutions empower your organization to:

- Accelerate innovation by leveraging Azure's advanced capabilities.
- Enhance operational efficiency through streamlined IT processes.
- Optimize costs by aligning resources with business demand.
- Strengthen resilience with reliable backup and disaster recovery.
- Achieve scalability and flexibility to meet evolving business needs.

Let Converge Cloud guide your transformation to a cutting-edge, cloud-powered future.

Together, we'll unlock new opportunities, drive innovation, and achieve sustainable growth.

Imagine a world. Now make it so.
