

Drive excellence in healthcare with ISH+

Maximize revenue by optimizing costs and ensuring compliance.

Unmanaged complexity threatens your profitability.

- **Rising costs:** Manual processes and fragmented systems inflate expenses.
- **Revenue leakage:** Inefficient billing controls miss charges and delays cash flow.
- **Compliance risks:** Navigating HIMMS, HIPAA, JCI, GDPR, OHCS and POPI strains resources.
- **Scalability struggles:** Legacy systems hinder growth, driving up IT costs without adding value.

ISH+: Unified operations, unmatched financial control.

- **All-in-one platform:** Combines EHR, ERP, EMR, and revenue cycle management for streamlined operations.
- **Revenue optimization:** A range of advanced tools support all stakeholders to improve efficiency and profitability.
- **Seamless integration:** Integrates with SAP, Oracle, Xero, Sage, and more industry standard systems.

Key Financial Highlights

- **Slash operational costs:** Streamlines billing and admin tasks, reducing labour and errors.
- **Become empowered:** Real-time analytics empower users to make informed decisions.
- **Stay compliant:** Meets HIMMS, HIPAA, JCI, GDPR, and POPI standards, minimizing legal risks.
