

Use every voice to elevate care with PXM

Empower staff with the tools to
enhance patient experience.

Your workload impacts patient care.

- **Time pressure:** Manual feedback processes steal time from patient care and often tell a biased story.
- **Turnaround times:** Slow responses to patient issues frustrate staff and patients alike.
- **Resource strain:** Limited tools make it difficult to effectively address recurring problems with all the information needed.

PXM: Your partner in patient care.

- **Instant alerts:** Negative feedback escalates in under 2 minutes, letting you act immediately.
- **Effortless surveys:** Automated, customizable tools lighten your workload.
- **Actionable insights:** Analytics pinpoint issues, empowering evidence-based interventions.
- **Seamless integration:** Works with your HIS, no more unnecessary duplication.

Proven staff benefits.

- **50,000+ events monthly:** Handles feedback at scale, freeing you to focus on patients.
- **Productivity boost:** 87% of clients report less admin and more care time.
- **Evidence-based improvements:** 78% of clients report staff-driven improvements that enhance care quality.

Why PXM stands out.

- 🏆 **Rich reporting:** Unmatched insights to focus your efforts.
- 🏆 **Quick to use:** Operational in hours, minimal training needed.
- 🏆 **Staff-centric design:** Simplifies rounding and follow-ups.
