

Empower your nursing team with Triton

Align precision staffing with compassionate care.

Nursing teams are overwhelmed.

- **Burnout:** Unpredictable workloads lead to nurse fatigue, high staff turnover and errors.
- **Ineffective staffing:** Static models fail to address real-time patient needs, causing staffing gaps and quality concerns.
- **Patient care risks:** Inconsistent staffing impacts care and reduces patient satisfaction while introducing unnecessary risks to your hospitals and your patients.

Triton plans with precision.

- **Patient-acuity engine:** Aligns nurse allocations with real-time patient acuity and ward occupancy.
- **Real-time adjustments:** Adapts shift plans instantly to changes in volume or acuity.
- **Use unassigned staff:** Shift planners can use unassigned staff before utilising agencies or overtime.
- **HR and biometric system:** Syncs effortlessly with your HR and clocking system's.

Transform your nursing operations.

- **Happier nurses:** Balanced workloads cut burnout and improve retention.
- **Better care:** Up to 16% increase in patient satisfaction scores.
- **As little as 7-minute shift planning:** Cuts admin time, boosts nurse productivity.
- **+ 95% on-budget shifts:** Maximizes resources without compromising care.

Why Triton stands out

- 🏆 **Quick to learn:** Less than 1 hour of training required.
- 🏆 **Customizable:** Tailors to your hospital's unique setup.
- 🏆 **Patient focus:** Improved patient outcomes through calibrated care.
